Suspicious Transaction Report - STR-2025-1190 (Synthetic)

Filing institution: Peninsula Finance NBFC (BANK_C) - regulated by CBB
Filed with: Financial Intelligence Directorate (FID), Bahrain
Filed on: 2025-11-06
Typology: Suspected synthetic identity at onboarding
Status: Closed by FID - information retained
Synthetic filing for the ARGUS demo. Not a real report.

Subject

Applicant for a consumer finance facility, onboarded 2025-10-29.

Narrative

The applicant's identity document passed document verification, but the device used for the application had previously been used for two other applications under different names within 30 days. The applicant defaulted on the first instalment. CBB Rulebook FC-1.5 requires licensees to detect duplicate identities and devices across licensees; our checks could only compare against our own applicants, so we could not confirm whether the identity was also in use at other institutions.

Supporting evidence cited

- Application record and device fingerprint history (Annex A)
- Filed within 3 business days of suspicion, per CBB FC-6.1
