## Subject

Savings account opened 2026-01-11; account holder aged 21, declared occupation student.

## Narrative

Between 2026-05-12 and 2026-05-18 the account received 14 inbound transfers from 11 unrelated senders totalling SAR 391,000, and forwarded 96% of the balance within 24 hours to a single beneficiary account at another institution. The pass-through profile matches SAMA Rules Art. 8 (money mule and pass-through accounts).

## Limitation noted by the investigator

Several senders held accounts at other institutions. Our monitoring only covers Levant Commercial customers, so we could not see whether the senders or the beneficiary were part of a wider network. A cross-institution view would be needed to identify the full ring.

## Supporting evidence cited

- 14 inbound credits and 3 outbound transfers (Annex A)
- Device login history showing logins from 4 devices in 6 days (Annex B)
