CBB Rulebook - Financial Crime Module (FC) (Synthetic)

Regulator: Central Bank of Bahrain (CBB)
Regulation ID: REG-CBB-FC-2024
Effective: 2024-03-01
Synthetic document for the ARGUS demo. Not the real CBB Rulebook.

FC-1.5 - Duplicate Identities Across Licensees

Licensees, including finance companies (NBFCs), must take reasonable steps to detect when the same identity document or device is used to open accounts or facilities at more than one licensee, as this is a key indicator of synthetic-identity and first-party fraud. Checks confined to the licensee's own customer base do not satisfy this requirement.

FC-4.2 - Cross-Border Corridor Monitoring

Licensees must apply enhanced monitoring to transfers moving through GCC cross-border corridors, including chains of transfers across several institutions and flows that return to, or close to, their point of origin.

FC-6.1 - Timely Suspicious Transaction Reporting

Where a licensee knows or suspects that a transaction involves the proceeds of crime, it must file a Suspicious Transaction Report (STR) with the Financial Intelligence Directorate within three business days of forming that suspicion, with a narrative that cites the supporting transactions.
